Mr. Fred Francis
Sr. Environmental Engineer
International Paper - Riverdale Mill
601 County Rd 78
Selma, AL 36703

RE: **No. 2 Bark Boiler Annual PSD Emissions Report**
Facility No. 104-0003

Dear Mr. Francis:

This letter acknowledges receipt and review of the 3rd annual PSD emissions report for the No. 2 Bark Boiler Grate Replacement Project. On August 10, 2022, International Paper - Riverdale was issued a non-applicability letter for this modification. This letter required a nitrogen oxide (NOx) emissions report be submitted for a period of 5 years following resumption of regular operations in accordance with ADEM Admin Code 335-3-14-.04(17)(e)(4). The mill commenced post-project regular operation following the No. 2 Bark Boiler outage in 2023; therefore, this report must be submitted annually through 2028 to demonstrate that the modification did not result in a significant increase in emissions. The report, for the time period of January 1, 2025, through December 31, 2025, was due on March 1, 2026, and was received on February 26, 2026.

This report indicated the following:

Pollutant	2025 Emissions vs. BAE	PSD Threshold Limit (tpy)
NO_X	-285.40	40

The table above indicates that the project did not result in a significant increase in emissions of the listed pollutant. Please be reminded your next annual report is due by March 1, 2027.

If you have any questions or comments, please contact me at (334) 270-5671.

Sincerely,

Steven Bissey
