RE: Title V Annual Compliance Certification
Facility No. 104-0003

Dear Mr. Francis:

The Department is in receipt of International Paper Riverdale's Title V Annual Compliance statement for the reporting period of January 1, 2025, through December 31, 2025, as required by ADEM Administrative Code, Rule 335-3-16-.07(5). It was noted that the deviations contained in this report were correctly reported to the Department. It was also noted that corrective actions were taken in order to minimize any excess emissions caused by these deviations and documentation of these deviations are being kept on file. As a reminder, please remember to notify the Department of any deviations resulting in emissions above a permitted limit as stated in General Proviso 21 (b) of the facility's permit.

Per General Proviso 12 of your MSOP the next Annual Compliance Certification should be submitted to the Air Division and the EPA no later than **February 28, 2027,** for the period of January 1, 2026, through December 31, 2026. The EPA has requested Annual Compliance Certifications be submitted through the Compliance and Emissions Data Reporting Interface (CEDRI) located on EPA's Central Data Exchange (CDX). Please ensure that the General Permit Provisos as well as Unit Specific Provisos are addressed in the Annual Compliance Certification.

If you have any questions concerning this letter or your permit conditions, please call me at (334) 270-5671.

Sincerely,

Steven Bissey
