RE: **1st Quarter 2026 Biological Treatment Performance Test**
Facility No. 104-0003

Dear Mrs. Pearson:

This letter acknowledges receipt and review of International Paper - Riverdale's quarterly MACT I Biological Treatment Performance Test Report for the monitoring period of January 1, 2026, through March 31, 2026, as required by 40 CFR, Part 63 - Subpart S. The report's due date is April 30, 2026, and the Department received the report on March 12, 2026.

According to the report, it was noted that an average of 13.0 lbs of methanol per ODTP was collected and an average of 11.1 lbs of methanol per ODTP was removed/treated. The methanol collected was above the minimum compliance target of 11.1 lbs of methanol per ODTP to be collected and 10.2 lbs of methanol per ODTP to be treated.

It was noted that the daily surrogate parameter during this test averaged 94.0 lb soluble COD/hp, which is less than maximum allowed 131 lb soluble COD/hp.

Please be reminded that your next MACT I Biological Treatment Performance report for the period of April 1, 2026, through June 30, 2026, will be due July 31, 2026.

If you have any questions or comments, please contact me at (334) 270-5671.

Sincerely,

Steven Bissey
